ENGINEERING TOMORROW

**Data Sheet** 

# Change-over valve Type **DSV 10**, **DSV 1** and **DSV 2**

Highly reliable safety valves provides lower capacity and more flexibility

DSV 10, DSV 1 and DSV 2 are change-over valves, which are designed to meet all industrial refrigeration application requirements.

DSV valves are designed specifically for use with double safety valve systems.

The valves are designed to give favourable flow characteristics and are easy to dismantle for servicing. The valve cone is designed to ensure perfect closing, even with minimum torque the valve will close effectively. All valves are equipped with vented cap and nipple/flange connections, which permit easy inspection or replacement of safety valves.

### **Features**

- Applicable to HCFC, non flammable HFC, R717 (Ammonia) and R744 (CO<sub>2</sub>)
- Each valve type is clearly marked with type, size and performance range
- The valves and caps are prepared for sealing, to prevent operation by unauthorised persons, using a seal wire
- Can accept flow in both directions
- Housing and bonnet are made from low temperature steel according to requirements of the Pressure Equipment Directive and other international classification authorities
- Max. operating pressure:
  - DSV 10: 65 bar (943 psig)
  - DSV 1 and DSV 2: 40 bar (580 psig)
- Temperature range:
  - $\circ$  Temperature range: DSV 10, DSV 1 and DSV 2: -50 °C to 100 °C (-58 °F to 212 °F)
- **DSV 10** when fitted with 2 x SFA 10/SFA 10H or **DSV 1** when fitted with 2 x SFA 15/BSV 8 or **DSV 2** when fitted with a combination of either 2 x SFA 15, or 2 x SFV 20, or 2 x SFV 25, meet the requirements according to EN13136 "Safety Valves Calculations" regarding max. 3% pressure drop in upstream line
- Classification: EAC etc. To get an updated list of certification on the products please contact your local Danfoss Sales Company

### Media

### Refrigerants

Applicable to HCFC, non flammable HFC, R717 (Ammonia) and R744 ( ${\rm CO_2}$ ). Flammable hydrocarbons are not recommended. The valve is only recommended for use in closed circuits.

For further information please contact Danfoss.

# **New refrigerants**

Danfoss products are continually evaluated for use with new refrigerants depending on market requirements.

When a refrigerant is approved for use by Danfoss, it is added to the relevant portfolio, and the R number of the refrigerant (e.g. R513A) will be added to the technical data of the code number. Therefore, products for specific refrigerants are best checked at store.danfoss.com/en/, or by contacting your local Danfoss representative.

### **Product specification**

# Pressure and temperature

Table 1: Pressure and temperature

Description	Values
Temperature range	-50 °C to 100 °C (-58 °F to 212 °F)
Max. operating pressure	DSV 10: 65 bar (942 psig) DSV 1 and 2: 40 bar (580 psig)

### Design

### **Housing and bonnet**

Made from special, cold resistant steel approved for low temperature operation.

A Teflon tightening ring provides perfect sealing with a minimum closing torque.

### Spindle

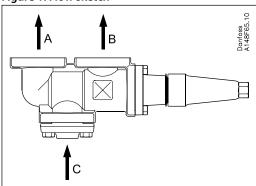

Made of polished stainless steel, which is ideal for O-ring sealing.

The "full temperature range" packing gland ensures perfect tightness in the whole temperature range: -50 °C to 100 °C (-58 °F to 212 °F). The packing gland is equipped with a scraper ring to prevent penetration of dirt and other foreign bodies.

### Installation

DSV are used as changeover valves between two SFA/BSV/SFV safety valves. When the spindle is turned clockwise the inlet port C is connected to B. When the spindle is turned anticlockwise the inlet port C is connected to A. For further information refer to installation guide for DSV.

	in.	2	1.77	2.17	2.76	3.25	11.06	3.03	13.45 lb

# • NOTE:

Specified weights are approximate values only.

# **Ordering**

### **How to order**

The table below is used to identify the valve required.

### NOTE:

The type codes only serve to identify the valves, some of which may not form part of the standard product range. For further information please contact your local Danfoss Sales Company.

### Example

DSV 2 FD20 SFA 15 = **148F3006** DSV 2 = Valve type FD20 = DSV inlet connection SFA 15 = Safety valve combination

Table 13: Type codes

Tuble 15. Type codes						
Valve type	DSV inlet connection	DSV outlet connection	SFA/SFV outlet connection	Safety valve combination	Code No.	
DSV 10 G	ND15 (1/2 in.) RH	G ½ in. Union	ND15 (1/2 in.)	SFA 10(H) T	148F3054	
DSV 10 NPT	NPT (¾ in.) Male	NPT (1/2 in.) Female	NPT (¾ in.) Male	SFA 10(H) NPT	148F3055	
DSV 1	D25 (1 in.)	G ¾ in. Union	ND20 (¾ in.)	SFA 15/BSV 8	148F3005	
DSV 2	FD20 (¾ in.)	G ¾ in. thread flange	ND20 (¾ in.)	SFA 15/BSV 8	148F3006	
DSV 2	FD25 (1 in.)	G ¾ in. thread flange	ND20 (¾ in.)	SFA 15/BSV 8	148F3007	
DSV 2	2 FD32 (1¼ in.)	G ¾ in. thread flange	ND20 (¾ in.)	SFA 15/BSV 8	148F3008	
DSV 2	FD25 (1 in.)	G 1¼ in. thread flange	FD25 (1 in.)	SFV 20	148F3009	
DSV 2	2 FD32 (1¼ in.)	G 1¼ in. thread flange	FD25 (1 in.)	SFV 20	148F3010	
DSV 2	2 FD32 (1¼ in.)	G 1¼ in. thread flange	FD32 (1¼ in.)	SFV 25	148F3011	
Connection fittings:	Т	Thread branch ISO 228 male				
	NPT	Thread branch ANSI/ASME B1.20.1				
	D	Weld branches DIN 2448				
	ND	Weld nipples DIN 2448				
	FD	Weld flanges DIN 2448				

### **Above code numbers include:**

DSV valve, DSV inlet connection fitting, DSV outlet connection fitting, SFA/BSV/SFV outlet connection fittings and necessary seals.

Safety valves SFA/BSV/SFV must be ordered separately (see SFA/BSV/SFV technical documentation).

# **Fittings and gaskets**

Table 14: Fittings and gaskets

Туре	Code No.
Nipples + Gaskets set for ND15/ND15 DSV 10 G/SFA 10(H) T	148F3067
Nipples + gaskets set for 25D/ND20 DSV 1/SFA 15/BSV 8	148F3037
Flanges + gaskets set for FD20/ND20 DSV 2/SFA 15/BSV 8	148F3038
Flanges + gaskets set for FD25/ND20 DSV 2/SFA 15/BSV 8	148F3039
Flanges + gaskets set for FD32/ND20 DSV 2/SFA 15/BSV 8	148F3040
Flanges + gaskets set for FD25/FD25 DSV 2/SFV 20	148F3041
Flanges + gaskets set for FD32/FD25 DSV 2/SFV 20	148F3042
Flanges + gaskets set for FD32/FD32 DSV 2/SFV 25	148F3043

### **Accessories**

### Table 15: Accessories

Туре	Code. No
DSV 10 G Cap and alu gasket for testing (1 set)	148F3063
DSV 10 T Plug ½" NPT for testing (1 set)	148F3072

# Certificates, declarations and approvals

The list contains all certificates, declarations, and approvals for this product type. Individual code number may have some or all of these approvals, and certain local approvals may not appear on the list.

Some approvals may change over time. You can check the most current status at danfoss.com or contact your local Danfoss representative if you have any questions.

### **Table 16: Valid Approvals**

File name	Document type	Document topic	Document topic
RU Д-DK.БЛ08.В.03634	EAC Declaration	Machinery & Equipment	EAC
RU Д-DK.PA01.B.72064_20	EAC Declaration	PED	EAC
033F0685.AK	EU Declaration	EMCD/PED	Danfoss
TS271067J-2023	Manufacturing Permission	TSG	AQSIQ
033F0691.AE	Manufacturers Declaration	RoHS	Danfoss
033F0686.AH	Manufacturers Declaration	PED	Danfoss
033F0473.AD	Manufacturers Declaration	ATEX	Danfoss
19.10327.266	Marine - Safety Certificate		RMRS
0045 202 1204 Z 00354 19 D 001(00)	Pressure - Safety Certificate		TÜV
19.10327.266	Marine - Safety Certificate		RMRS

### **Table 17: Compliance**

	DSV 10 valves	DSV 1 valves	DSV 2 valves
Nominal bore	DN 15 mm (½ in.)	DN ≤ 25 mm (1 in.)	DN 32 mm (11/4 in.)
Classified for	Fluid group I		
Category	A4/P3		II

### **Table 18: Pressure Equipment Directive (PED)**

DSV valves are approved and CE-marked in accordance with Pressure Equipment Directive - 97/23/EC. For further details / restrictions - see Installation guide.

# Online support

Danfoss offers a wide range of support along with our products, including digital product information, software, mobile apps, and expert guidance. See the possibilities below.

### **The Danfoss Product Store**

The Danfoss Product Store is your one-stop shop for everything product related—no matter where you are in the world or what area of the cooling industry you work in. Get quick access to essential information like product specs, code numbers, technical documentation, certifications, accessories,

Start browsing at store.danfoss.com.

### Find technical documentation

Find the technical documentation you need to get your project up and running. Get direct access to our official collection of data sheets, certificates and declarations, manuals and guides, 3D models and drawings, case stories, brochures, and much more.

Start searching now at www.danfoss.com/en/service-and-support/documentation.

### Danfoss Learning

Danfoss Learning is a free online learning platform. It features courses and materials specifically designed to help engineers, installers, service technicians, and wholesalers better understand the products, applications, industry topics, and trends that will help you do your job better.

Create your Danfoss Learning account for free at <a href="https://www.danfoss.com/en/service-and-support/learning">www.danfoss.com/en/service-and-support/learning</a>.

### Get local information and support

Local Danfoss websites are the main sources for help and information about our company and products. Find product availability, get the latest regional news, or connect with a nearby expert—all in your own language.

Find your local Danfoss website here: www.danfoss.com/en/choose-region.

### **Spare Parts**

Get access to the Danfoss spare parts and service kit catalog right from your smartphone. The app contains a wide range of components for air conditioning and refrigeration applications, such as valves, strainers, pressure switches, and sensors.

Download the Spare Parts app for free at www.danfoss.com/en/service-and-support/downloads.

### Coolselector®2 - find the best components for you HVAC/R system

Coolselector®2 makes it easy for engineers, consultants, and designers to find and order the best components for refrigeration and air conditioning systems. Run calculations based on your operating conditions and then choose the best setup for your system design.

Download Coolselector®2 for free at coolselector.danfoss.com.
